

DUTCH PLUS INSTRUCTIONS

How to Collect Urine

Urine Collection Device

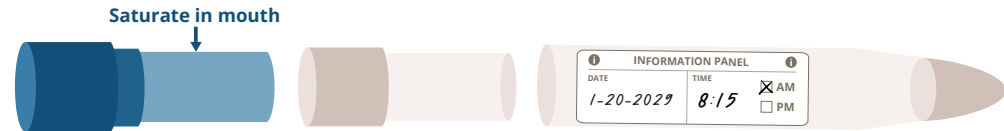

Urine

- Step 1: Fill out information panel on urine collection devices.
- Step 2: Fully saturate filter paper with urine for 2-3 seconds or use a clean cup and dip filter paper.
- Step 3: Leave collection devices open for 24 hours. **Dry completely.**
- Step 4: Close & repack collection devices in provided plastic bag.

How to Collect Saliva

Saliva Collection Device

Saliva

- Step 1: Fill out information on saliva collection devices.
- Step 2: Remove cap. Tip tube to place swab in mouth. Lightly chew (helps saliva flow) and saturate swab 2-3 min.
- Step 3: Return swab to tube. Do not touch with hands.
- Step 4: **Freeze all saliva samples** until ready to ship.

WHEN TO COLLECT

Who are you?

Male & Non-Cycling or Postmenopausal Female: Collect any day

Cycling/Perimenopausal Female: For a 28 day cycle, begin collection between days 19 and 22. Collect 6-9 days before end of cycle.

Not sure when to collect? dutchtest.com/cycle-calculator
